

## CEO's Message: STT Poised to Capture Value in the Digitalisation Juggernaut

Digitalisation has different implications depending on the company's circumstances and ambitions. I am happy to note that ST Telemedia (STT) is well-positioned to capture value in the digitalisation process, with our three business focuses strategically placed to take advantage of the different facets of digitalisation. Our 2018 report card is a true reflection of that, and we have started 2019 on an exciting note with the announcement of our **acquisition of Cloud Comrade**. This year also marks STT's 25th anniversary, so be sure to look forward to a very dynamic year ahead as we celebrate this momentous occasion while remaining focused on expanding our digital ecosystem in new growth areas!

### CORPORATE NEWS

#### VIRTUS Scales Rapidly with Simultaneous Creation of Five Additional Data Centres

VIRTUS is **scaling up quickly with five new data centres in London** to stay ahead of the surging demand in the local data centre market. The addition of three facilities at its Slough campus and two at its Stockley Park campus which was launched just last year, will about double VIRTUS' capacity. The facilities will be built simultaneously over the next two years, making the construction one of Europe's largest digital infrastructure initiatives to date.

## Datameer Clinches Global Competitive Strategy Innovation and Leadership Award

Datameer was conferred the '2018 Global Competitive Strategy Innovation and Leadership Award' by Frost & Sullivan. The annual award lauds companies for leveraging on competitive intelligence to successfully execute a strategy that results in stronger market share, competitive brand positioning, and customer satisfaction. Datameer was recognised for evolving from a pure spreadsheet-style analytics platform to a unified data preparation platform, thereby allowing customers to do away with multiple technology solutions and instead, have a unified data source to build a big data picture.

## VALUE CREATION

### STT GDC's Seventh – and Largest – Data Centre in Singapore to Support Growing Cloud Market

Recognising the exponential growth of cloud providers in Southeast Asia, ST Telemedia Global Data Centres (STT GDC) is continuing its rapid expansion with a new hyperscale data centre, STT Loyang. The facility aims to leverage on STT GDC's global footprint and local expertise to elevate Singapore's position as Southeast Asia's data centre hub while supporting the growing cloud market in the region. STT Loyang marks STT GDC's seventh – and its largest – data centre in Singapore to date, and will join over 70 other assets around the world. It is expected to be completed in mid-2020.

## COMMUNITY

### STT Teams Up with Portfolio Companies to Sprint for a Good Cause

Last October, staff volunteers from STT and its portfolio companies laced up and sprinted 1.6km each around The Promontory @ Marina Bay during the annual Bloomberg Square Mile Relay. Greatly boosting morale was STT President & CEO Stephen Miller who specially headed down to support the team. Not only was it a night of high energy, team spirit and camaraderie, the team also contributed to a good cause as race proceeds went towards funding programmes by SportCares, which seeks to positively impact the lives of underprivileged children and youth through sport.

## TeleChoice Spreads Lunar New Year Cheer to Seniors

Last month, 20 staff volunteers from TeleChoice brought warmth and festive cheer to the households of over 200 less privileged seniors by delivering Fú Dài (fortune bags) to them. The bags contained necessities and food items that the volunteers personally assembled. This marks the second consecutive year that TeleChoice has participated in this meaningful activity.
